Why "STARS" of the Garden?

Wrote a Farr customer, several years ago:

"Daylilies are shaped like STARS

Daylilies sparkle like STARS in the day garden

Daylilies glow like STARS in the twilight

Daylilies are as certain as the STARS."

FARR NURSERY COMPANY, Weiser Park, Penna.

Back home again after almost three years in Europe, and the Day-lilies are all doing well even without care. The same can't be said for other garden items. . .
